

**John Lally**  
ISO-NE Market Administration

TO: NEPOOL Market Committee Members

FROM: John Lally

DATE: March 14, 2003

SUBJECT: Excepted Transaction Holders need to select ARR Allocation Treatment

---

Attached is the form for holders of Excepted Transactions (ETs) listed in Attachments G and G-2 of the NOATT to request Auction Revenue Rights (ARRs) pursuant to Market Rule 1 – Appendix C, Section 2.1. The holders of these ETs will need to complete and return the form to ISO-NE Market Administration by 17:00 hours on Monday, March 24, 2003 to request ET treatment for the \$1,055,271.71 ARR Allocation of the March Financial Transmission Rights (FTR) Auction Revenues. Results of this allocation are to be reflected in the March bill issued in April.

The completed form should be sent to ISO-NE Market Administration, One Sullivan Road, Holyoke, MA 01040-2841. To speed processing the form can also be faxed to (413) 535-4150.

The requested treatment will continue until such time as this form is resubmitted to Market Administration, or the entitlement expires. Elections received by 17:00 hours on Monday, March 24, 2003 will be effective for March and April. Thereafter, changes in requested ARR treatment will need to be made by the time the bidding window for the monthly auction closes. Therefore, after the March 24, 2003 deadline passes, the next deadline to request a change in ARR treatment will be by 12:00 hours on Wednesday, April 16, 2003 when the bidding window for the May FTR Auction closes. Requests received by April 16, 2003 will be effective for the ARR Allocation of May FTR Auction Revenues.

ETs, which have an external source or an external sink, shall have physical scheduling and curtailment rights in accordance with Section 25D(a) of the NOATT until the ET Receiver listed in Attachment G-3 of the NOATT elects to be allocated ARR. ET Receiver that elect to retain physical rights are ineligible to request or receive first stage

ARRs for ETs pursuant to Market Rule 1 – Appendix C, Section 2.1. The ET Receiver listed in Attachment G-3 must elect the same treatment (physical vs. ARR) for all of the Excepted Transactions covered within a single G-3 line item (e.g., MMWEC shall determine if the entire 81.8 MWs of the NYPA ET (G-3, Item 2) gets physical or ARR treatment.); Partial ARR treatment requests for a G-3 line item will not be accepted. Once an ET Receiver elects to be allocated ARRs, the party will not be able to revert back to using their contract rights for physical scheduling and curtailment pursuant to Attachment G-3 of the NOATT.

Data highlighted in green is still under review. If you have corrections to this data please contact Ms. Pam Kozlowski at (413) 283-1940.
